## **Customer Reviews**

I decided to buy this book on a whim. I thought the price was right and of course being female, I

naturally had that same question. The book is an easy read but I didn't learn anything new. I mean I can see how some females could learn from this book, but if you honestly can read this book and feel its that earth shattering, you must not have any clues about men. The real truth is no book can give you an explanation as to why he hasn't popped the question. I'm sorry ladies.

Very good book. I thought I was waiting in vain, but it opened my eyes. It not only tells you what he is thinking, but whether or not he's the one for you. I realize that there are somethings that me and bf need to talk about before I even decide if I want the ring.

This book is a commonsense guide to help you get your man to pop the question. If you ever found yourself in the terrible position where gave the man of your dreams the big ULTIMATUM and it backfired, you must read this book!This guide shows you the perfect, no-pressure way to take your love to the next level-with "he says, she says" insights, relationship "red flags," long-term secrets for lasting success, and real-life stories . It even includes a relationship timetable that will tell exactly when to take the next step-straight down the aisle to the marriage of your dreams.I recommend this book to readers who really want to get married.Enjoy!Julie Spira, author of *The Perils of Cyber-Dating: Confessions of a Hopeful Romantic Looking for Love Online*

The only question I was asking myself when I read this was, "Why Wasn't This Book Written Sooner?" After too many tears, relationship craziness and not ever knowing what my guy was thinking, I only wish this book was around when I was dating! The "Why Hasn't He" series is brilliant, and Matt and Tamsen have nailed the best advice one can give for any relationship situation.

Great read so far. Unfortunately, my boyfriend noticed this book on my kindle when I left it open by accident while we were flying...wish I was a mind reader

*Why Hasn't He Proposed?: Go from the First Date to Setting the Date*  
*Why Hasn't He Proposed* is an excellent continuation of the "Why Hasn't He.." series. This book certainly gave a much needed view into the mind of those considering proposing or those waiting for their mate for life. The detailed examples and recommendations are something that I actually found usefully. I tend to read many relationship books and this one certainly provided much needed advice. I also read "Why Hasn't He Call"  
*Why Hasn't He Called?: New York's Top Date Doctors Reveal How Guys Really Think and How to Get the Right One Interested* the first book in the series and a must read for those

on the general dating scene. Overall this is certainly one the top relationship books out on the market
