Customer Reviews

This book is a very comprehensive and guide on achieving some great sex through certain positions. Sex is an art and not just a physical activity with the goal of satisfying a need. Anyone who wishes to make its partner go wild in the bedroom needs to know how to give good head. This book will teach you how to keep yourself alive in the bedroom. Reading this book and getting the best ideas about sex will surely make your partner beg you for more. I highly recommended this book.

I really wanted to turn the page till the next chapter. The book is very useful to improve relationship between couple. I got many tips and tricks of positions for future practice. The plot is interesting and exciting. I still recommend this book to somebody who wants to improve a sexy and feel new emotions. In this book the information is organized in a logical way thatâ™s easy to access, read and understand. It is indeed a good read and I highly recommend this book to everyone.

This collection is great for couples or partners who are married and want to explore new things. It's good to explore this portion of your relationship as married couples as it creates a deeper connection and bond and you become more comfortable with each other. There are a lot of new exciting positions that you can learn and also a lot of tips for both men and women to do something for their partners. This is a good guide for couples and it helps you spice things up in your

relationship.

I am not a reader of self help books, but this book came recommended to me as a text that is helpful in the areas of communication with a lover or a spouse and can have a drastic impact in many areas of my relationships beyond what the title suggests. What I find is very funny is that there are not many reviews of this book, likely because of the title and the American puritanical views of such things (or is it airing dirty laundry? or decorum?), but to my friends, family, employers, and anyone else that cares about not-their-relationship, I will be happy to share my colorful opinions about what you have to say about what books you think I should read or what you think I should write if you ever decide to bring it up to me in person. I found it very insightful and this is definitely something that a lot of the couples come to me for.

I have to admit that sex with my husband became boring. I know that there is love between us, but we both have a lot of obligations, and together we take care of our children. We are often tired, and sex has become routine. I picked up this book because I want to revive our sex life. I read both of these books, and I realized where we made a mistake and how to correct it. Certainly, sex is a very important part between two people, and this set of books is very useful for all couples.

I really enjoyed reading this book! The author is very transparent about his experience and it makes for easy reading. The book is less about sex and more about having a healthy relationship with your wife. The book is surprisingly practical, especially when it comes to communication tips. It is an enjoyable read with solid actionable suggestions that anyone in a marriage should consider to make sure the marriage remains on the tracks.

Very impressive book that will aid you if you have already a boring sex life after marriage. A very useful book for couples who are married or in a longer relationship. The relationship between man and woman I watch as the game. The author has given many greatest sex positions known to keep your love life interesting. This book is strictly for adults and I believe the adults will enjoy this. Highly recommended.

Excellent book! It is intended for couples who are married or in a long relationship. Over time, couples fall into monotony, and their sex life becomes monotonous, often without excitement. Using information from this book you will learn how to enter the passion in your relationship and your sex

life be like never before. Really worth reading, all the recommendations!
