Almost all of my relatives are having diabetes and I have a very high chance also to suffer from that problem but not anymore cause I think the guide of these book will help me prevent the possibilities of having diabetes in the future. If you just follow the diet and guide on this book you surely safe from having diabetes.

My mom actually have diabetes and I have to tell you that she isn't a doctor's dream patient. She eats whatever she likes and while she takes her medicines it still isn't a great thing for her condition to eat whatever. I purchased the book and actually prepared her one meal to try it out and she likes it. I told her about the book and showed it to her and thank goodness that she wrote down a few recipes and I am just hoping that she will be preparing it instead of what she usually cooks for herself.

Grabbed this for my mother so she can cook better food for my dad who suffers from diabetes. I gotta say that the recipes are really, really good. My father seems better since I gave this book to mom and I do hope it would help his condition in a long term. Awesome book.
