Customer Reviews

I know that it only cost me 2.99, but come on....it took me all of 3 minutes to read all of it!!

Do not buy this book. It is terrible. The references are taken from Wikipedia. I wrote better papers than this as a freshman in high school. Awful.

Wikipedia info interspersed with King James Bible scriptures taken out of context. Basically this book's message is to buck up, don't worry about your appearance or how you feel. Put on a happy face. Newburg has no experience with the disease, either personally or professionally. Run away, run away!

Terrible book
