Diabetic Meal Plans: Diabetes Type-2 Quick & Easy Gluten Free Low Cholesterol Whole Foods Diabetic Recipes Full Of Antioxidants & Phytochemicals (Natural Weight Loss Transformation Book 261)

Synopsis

How Can You Go Wrong With Superfoods-Only Diet?FACT:Way too many of us live in a state of poor health, lethargy and moderate obesity. We live with headaches, back pain, inflammation, arthritis, high blood pressure, high cholesterol, diabetes, skin problems, insomnia and cancer â “ theyâ™re all the byproducts of modern western diet, based on processed food. Superfoods are foods and the medicine and they can help with all these symptoms!!Diabetic Meal Plans - fifth edition contains 6 week meal plans with recipes for Diabetes Type 2, created with 100% Diabetic Superfoods ingredients. Most of the meals can be prepared in just 10-15 minutes. Each recipe combines Diabetic Superfoods ingredients that deliver astonishing amounts of antioxidants, essential fatty acids (like omega-3), minerals, vitamins, and more. âœOur Food Should Be Our Medicine And Our Medicine Should Be Our Food.â • - Hippocrates 460 - 370 BCThe best thing about Superfoods Diabetic Lifestyle is that it will keep your appetite and cravings under control and it will balance your hormones. It's nearly impossible to lose fat if your hormones are out of balance. Superfoods Diabetic Lifestyle works because itâ™s return to the type of food your body naturally craves and was designed for. Whole foods Superfoods is the food humans consumed for literally millions of years. Superfoods are nutritionally dense foods that are widely available and which offer tremendous dietary and healing potential. Superfoods diet forbids processed foods, hybridized foods, gluten foods and high glycemic foods. There is nothing super in any of the processed foods or todayâ™s hybridized wheat, corn, soy or potatoes. Processed food is the main reason why people suffer from inflammations and why their hormones are out of balance.Superfoods Diet is the only diet that doesnâ™t restrict any major type of food. It features: âœ Healthy Fats: Olive Oil, Nuts, Seeds, Coconut Oil, Avocado âœ Proteins: Salmon, Beans, Organic Chicken, Grass-Fed Beef, Pork Tenderloin âœ Non-gluten Carbs: Fruits, Vegetables âœ Antioxidants: Garlic, Ginger, Turmeric, Cacao, Cinnamon, Berries Superfoods are basically nutrients packed foods especially beneficial for health and well-being. After eating these superior sources of anti-oxidants and essential nutrients for only a week or two you will: âœ Start losing weight and boost energy âœ Get rid of sugar or junk food cravings âœ Lower your blood sugar and stabilize your insulin level âœ Detox your body from years of eating processed foods âœ Lower your blood pressure and your cholesterol âœ Fix your hormone imbalance and boost immunity âœ Increase your stamina and libido âœ Get rid of inflammations in your body Would You Like To Know More?Download and start getting healthier today.Scroll to the top of the page and select the buy button.

Customer Reviews

This book is for people with diabetes or people who want to avoid diabetes by adjusting their diet. The diet provided for you in this book is full of meals that will keep your blood sugar levels as low as possible while you eat. Basically, these meals avoid using ingredients that contain simple carbohydrates, like refined flour. Simple carbohydrates are broken down quickly, and enter the bloodstream, raising blood sugar levels. If you need diabetic recipes that can be fixed for the family after work, please check out this book.

This is a really great book much more to it than I expected. The appendix is really good for someone who is on a weight loss program all of the recipes have a complete list of the nutritional value for the dish. I would recommend this book for everyone even those who are not diabetic. The choices for meals are extensive and the ingredients for many of the dishes are items you would normally have at home. I have looked at other diabetic cookbooks and they have rather bland choices while this book is making me hungry while I am reading it. By far one of the best specialty cookbooks I have read. Well worth the price.

This book was an easy read and very easy to understand. Diabetics need to watch their diets and, like everyone else, would like to eat tasty food. This book adds to the options a person with diabetes has to help them accomplish control of blood sugars with more variety in their diet. I would recommend this book to anyone who is looking for help, ideas and information regarding diabetes.

Great recipe book for diabetic. It has some great information on diabetic meal plans. This book offered me recipes to add that variety. This book provides a great resource to avoid and I love the recipes in this book. I will definitely recommend this book to all diabetic person interested in some different healthy choices for their diet.

I even tried jicama for the first time & my husband who is limited in the things he likes, especially vegetables, like it. I also love the fact that I'm able to mix and match to our liking and still stay within the proper portion sizes. I can recommend this book to the people who want to lose weight and keep insulin level under control

Luv the format of how to create a balance meal. I am very visually oriented and this book and the beautiful photos of the meals are a big help. We diabetics know what we should be eating, but the amounts can be a pain. Thank you for making it so easy to plan a meal to feed the whole family.
