Summary - The Life Changing Magic Of Tidying Up: By Marie Kondo -The Japanese Art Of Decluttering And Organizing (The Life Changing Magic Of Tidying Up ... Paperback, Audiobook, Audible, Japen)

Synopsis

A Complete Summary of The Life Changing Magic of Tidying Up. Japanese cleaning advisor Marie Kondo takes cleaning to an entirely new level, promising that you can appropriately arrange and improve your home once, without the need to repeat the process in the future. Most strategies support a room-by-room or little-by-little approach, which tells you how to pick away at your heaps of stuff until the end of time. The KonMari Method, with its progressive classification framework, prompts long-term results. Kondo's book, *The Life-Changing Magic of Tidying Up*, is a smash-hit in Japan, Germany, and the U.K. Kondo favors a common technique to deal with cleaning up your stuff all at once; it uses a friendly way to help individuals toss their surplus belongings. Here at *The Eye*,TM Kondo presents a part of the book, which states that those who are unable to detach themselves from their belongings will experience the ill effects of a past connection or nervousness about what's to come. Marie Kondo is a Japanese expert who has spent most of her time in cleaning. In *The Life-Changing Magic of Tidying Up*, Kondo offers her simple cleaning strategy alongside a great quantity of knowledge about disarray, as well as information of its types and causes. In the same way, she tells her own particular story and explains how it drove her to create and refine her cleaning system; introduced in the book as the KonMari Method. Customer Reviews

This is a summary of the book by Marie Kondo about cleaning and organizing. If you have a lot of mess in your life and your office or apartment than you will find a lot of ideas in this book how to take care of it. If you have a lot of time I recommend to read the original book, however if you are a busy person as I am I recommend to read this summary, you will learn the same ideas.

This book does not disappoint. "Tidying" and "life changing" seem an oxymoron in the same sentence but the Kondo method does evoke a life changing experience. This systematic tidying method works. Most importantly, it works continuously so that the tidier does not "grow" another overwhelming experience. I have shared this book with several people and they all give it a thumbs up. If you are serious about tidying, this book is an investment worth making.

This book is about keeping the essentials as well as getting rid of unnecessary clutter that all of us have in our homes. Seriously! It's not about tidying, it's about how you treat and understand the things in your life. I appreciate my sleek and clutter-free home now and I am grateful for this book, it allows me to experience so many positive returns in my life.

In this amazing book, you can learn about so many useful things. You can read about Life Changing Magic of Tidying Up. You will get some fun multiple choice quizzes, along with answers to help you learn about the book.

This is such a brilliant book to read! This is one of the greatest book I've ever read. Seriously! It's not about tidying, it's about how you treat and understand the things in your life. This is such a profound book; stated things in a simple way but every tip has been so useful and everything is worth trying for. This guide is a really great thing to start your year!

It was a short and easy read (I finished within two hour) yet thorough enough to change your whole mindset about organization for the best. I recommend this summary of Marie Kondo's book as a way to get an overview of her methods and her logic. I especially like the part about organizing your clothing. It is a little hard for me to get rid of some things, but I think this has helped me put things into perspective. Thank you!

In *The Life-Changing Magic of Tidying Up*, Kondo offers her basic cleaning system close by an incredible amount of learning about disorder, and additionally data of its sorts and causes. Similarly, she recounts to her own specific story and clarifies how it drove her to make and refine her cleaning framework; presented in the book as the KonMari Method. This book is prevalent in Japan, Germany, and the U.K. Its elegantly composed and general great. I prescribed this book.

I have just recently read another this kind of book and I find that this book offers way more than I would have expected. This is a very concise and straight to the point book by the writer and I find that this writing style suits me very well. The thing about this book is that it tackles every aspect about tidying up and is a great summary for lazy and time saving people
