Deaf In A City Of Music

Synopsis

What happens to someone who can't hear the music in a City of Music? A city where Deaf means something is broken and needs to be fixed? Where the home of the great Johnny Cash has never heard of Beethoven's Nightmare? The Deaf children in the City of Music are screaming to be heard. The moral behind the Joe Paterno case has not yet been learned from that grim tale. This is not a gripe session, but an awakening to the abuse and neglect of thousands of Deaf American children. Americans who shop in our stores, sit in our classrooms, die in our hospitals, and waste away in our prisons. This is a call to arms. This is a story of too many Deaf children in America.

Book Information

Paperback: 150 pages

Customer Reviews

Just finished this book and I am terribly moved by the true stories, told at times with humor, at times with frustration and despair, and throughout was unflinchingly candid. It's not always a pretty story but is one that needs to be told. I feel this should be required reading by police forces, court systems, schools, and other public-serving organizations, and would encourage church leaders and the friends, family, and neighbors of the Deaf to read it, as well.

Sorry that a subject like this must be written but hats off to Poppy for taking the time and the risk in writing this story. Pray more read it and learn!

Wonderful book. Needs to be read by all! Brings a new perspective to a world that most of us are unaware of!
