Common Core Science 4 Today, Grade 5: Daily Skill Practice (Common Core 4 Today)

Synopsis

Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week. Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring. Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze!

ISBN-10: 148381128X

ISBN-13: 978-1483811284

Product Dimensions: 8.4 x 0.2 x 10.9 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 stars [See all reviews](#) (22 customer reviews)

Best Sellers Rank: #37,469 in Books (See Top 100 in Books) #36 in [Books > Education & Teaching > Schools & Teaching > Instruction Methods > Science & Technology](#) #53 in [Books > Education & Teaching > Schools & Teaching > Common Core](#) #114 in [Books > Education & Teaching > Schools & Teaching > Curriculum & Lesson Plans](#)

Age Range: 10 and up

Grade Level: 5 and up

Customer Reviews

This book of worksheets is a great supplement to what your child is learning in school. I purchased this workbook, along with a couple of others, to help my son, who just changed schools. His new school is behind his previous school and I want to help him keep progressing and not get behind. My son has a learning disability and it helps for us to work together and spend extra time on

subjects he struggles to master. I use these workbooks during school vacations and summer break to help my son keep his skills growing and to reinforce what he learned at school. I wish there was some background material for each of the subjects covered in the science worksheets so I could teach the concepts to my son, but that's what Google is for, I guess. These worksheets are perfect! We do one page of each subject a day and it's just enough to accomplish our goals. I highly recommend these books for parents and teachers!

Another promising book to teach student about the core subject of Science. I will be using the book during 2nd semester but have already reviewed the pages within and found the work to be informative and interesting.

This series has daily practice questions on each topic/ lesson in 5th grade science. This book stresses on basic facts which all students should know. Once they know the basics, they should be able to attempt more challenging questions which requires application of these basic facts. This book is suitable for students who have time constraints or cannot focus that long. Each day has only about 4 questions to master. (some multiple choice, fill in the blanks and open ended questions) I wish the answer key in this book would give more information required to answer open ended questions. There are no lessons before the questions, so you need to have a reference book or go online to read up about the topic first

The concepts need to be previewed and reviewed, but the looping effect is great for increasing student retention!

Great books. Good thought provoking questions.

This book is more question book which you need to research on other books. It can make work a lot to find out right answer. Good work book.

It doesn't show you how to do any of the work.

Great product for teachers and students.
